NURSING

Solving the UK healthcare staffing crisis

Remedium's nursing offering allows clients to visit nursing candidates at source overseas, enabling organizations to hold face-to-face interviews and hire candidates who are well suited to their trust.

Our nursing recruitment offering is designed to allow organisations to maximise their ROI by hiring for multiple vacancies at once.

International projects allow our clients to fill several nursing vacancies on one trip, and our onboarding support ensures candidates successfully make the journey to the UK with minimal administrative delays.
